AMSI ISQ-QMS1 – Quality Management System for Intake Services in SEMP

First Draft Edition – 2025

Summary:
Sets a rights-based, person-centered QMS for safe, timely, and coordinated intake services for individuals with IDD in supported employment. Maintains quality through ethical responsibility, accountability, and continuous improvement.

Key Points:
– Builds on AMSI ISQ1-1, ISQ1-2, and IDS1 taxonomy
– Covers all intake phases: eligibility, planning, referrals, documentation, and risk management
– Requires an Intake Service Quality Coordinator, standardized documentation, and clear protocols
– Includes audits, CAPA, and data-driven improvements
– Aligns with CQL Basic Assurances® and regulations
